## INDUSTRIAL HYGIENE SERVICES CAPABILITY STATEMENT

ACTe2s is a multifaceted Regulatory Compliance Service provider assisting companies with local, state, and federal regulatory compliance. We have thousands of years combined experience as former regulators and compliance managers. ACT Safe provides Environmental, Occupational Safety and Health (OSH), Engineering, and Transportation solutions. From permitting, audits, Industrial Hygiene, Indoor Air Quality, ACM / LBP, expert witness, hazard determinations, written programs, training and file plan management - we cover your needs.

### INDUSTRIAL HYGIENE

Industrial hygiene services are focused on the anticipation, recognition, evaluation, communication and control of environmental stressors in the workplace environment. Such environmental stressors can include biological, chemical, physical, ergonomic or psychosocial categories and may result in injury, illness, impairment, or affect the overall wellbeing of workers and members of the community. Employers need a rigorous and professional program with independent evaluation to determine the potential for hazards, an evaluation of exposures or risk in the workplace, and recommended corrective actions. ACT Safe has a team of professional industrial hygienists as well as licensed asbestos and lead based paint technicians.

### SERVICES

- Identify health & safety problems in the workplace
- Conduct worksite and or personal sampling and analysis for exposure levels for chemicals, lead, asbestos, silica, mold and noise
- Develop and /or recommend corrective measures to eliminate hazards and prevent future problems to include engineering and non-engineering controls (to include work practices).
- Assess Engineering Controls/Ventilation
- Assess all worksite environmental stressors
- Assist in developing mandated health & safety programs
- Interpret safety data sheets (SDS)
- Perform Chemical Speciation
- Determine Community Exposures and risks
- Provide a full Health Risk Analysis & Hazard Communication
